

ZEPTACOIN INSTRUCTION

Trading and transferring Zeptacoin to LBank

Zeptacoin was listed on LBank exchange 5th January. In order to trade Zeptacoin on LBank you need to open an account on the cryptocurrency exchange. If you need the possibility to sell your existing Zeptacoin through LBank, you can make a transfer to the cryptoexchange.

Step 1

Visit LBank.info in order to open an account and log in. Click on the Sign Up and start the signing up process.

Step 2

Fill in your verification code that you have received from LBank to your e-mail address.

Step 3

When you have opened an account, you can make a deposit to LBank by clicking on the Deposit button.

The screenshot shows the LBank website interface. At the top, there is a navigation bar with the LBank logo and various menu items: Buy Crypto, Markets, Trade, Derivatives, Finance, Bonus Center, Wallet, Orders, LBK, and English / USD. Below the navigation bar, there is a dark grey header area with 'Estimated Net Value: ***** BTC ≈ ***** USD' and buttons for 'Deposit' and 'Withdraw'. The main content area is divided into sections for 'Spot', 'Futures', 'Grid', and 'Finance'. Under 'Spot', there is a sub-section for 'Spot assets equivalent' with '***** BTC ≈ ***** USD' and buttons for 'Financial Records' and 'Rebate Record'. Below this, there is a search bar and a checkbox for 'Assets Owned'. The main part of the dashboard is a table with columns: Token, Available, On Orders, Sub Total, Estimated Value, and Action. The table lists four tokens: ZPTC, USDT, LBK, and BTC, each with corresponding values and actions like 'Withdraw', 'Deposit', and 'Trade'. A 'Support' button is visible in the bottom right corner.

Token	Available	On Orders	Sub Total	Estimated Value	Action
ZPTC	****	****	****	**** USD	Withdraw Deposit Trade
USDT	****	****	****	**** USD	Withdraw Deposit Trade Finance
LBK	****	****	****	**** USD	Withdraw Deposit Trade
BTC	****	****	****	**** USD	Withdraw Deposit Trade Finance

Step 4

When you have clicked on the Deposit button and visit the Deposit page, make sure to first choose ZPTC in the choice menu. BTC is preset as the standard choice. Click on the pulldown menu and write ZPTC in the search box. You should then see the following picture. Click on Agree.

The screenshot shows the LBank interface for depositing ZPTC. At the top, there is a navigation bar with 'LBANK' and various menu items like 'Buy Crypto', 'Markets', 'Trade', 'Derivatives', 'Finance', and 'Bonus Center'. The main content area is titled 'Spot > Deposit'. A dropdown menu is set to 'ZPTC' with a 'Withdraw' button. Below this is a table showing account balances:

Available	On Orders	Total
1111.1111111	1111.1111111	2222.2222222

Below the table is a dark modal box with the ZPTC logo and the text: 'The address is for ZPTC deposit only. Losses resulted by wrongly depositing any other assets to this address cannot be retrieved.' An 'Agree' button is visible in the modal.

On the right side, there is a 'Deposit Notice' sidebar with the following text:

- Deposit to the wrong address, or deposit any non-ZPTC assets to the above address, the assets will not be retrieved. Some assets do not support smart contract deposit via transfer and deposit.
- After you deposit to the above address, it will undergo the confirmation of the entire network node. The payment time is generally 10 minutes to 30 minutes.
- Minimum deposit amount: 10 ZPTC, deposit less than the minimum amount will not be credited to the account and cannot be refunded.
- Your deposit address will not change frequently; if there is any change, we will try our best to notify you via website announcement or email.
- Please make sure that your computer and browser are safe to prevent information from being

At the bottom left, there is a 'Trade' section showing 'ZPTC/USDT'. At the bottom right, there is a 'Support' button.

Step 7

Visit https://app.tstarter.io/telos/send/?token_sym=ZPTC

Step 8

Login with Anchor or Telos Sign

ZEPTACOIN INSTRUCTION

Trading and transferring Zeptacoin to LBank

Step 9

Select which chain you want to send the tokens to like Ethereum (ETH) or Binance Smart Chain (BSC).

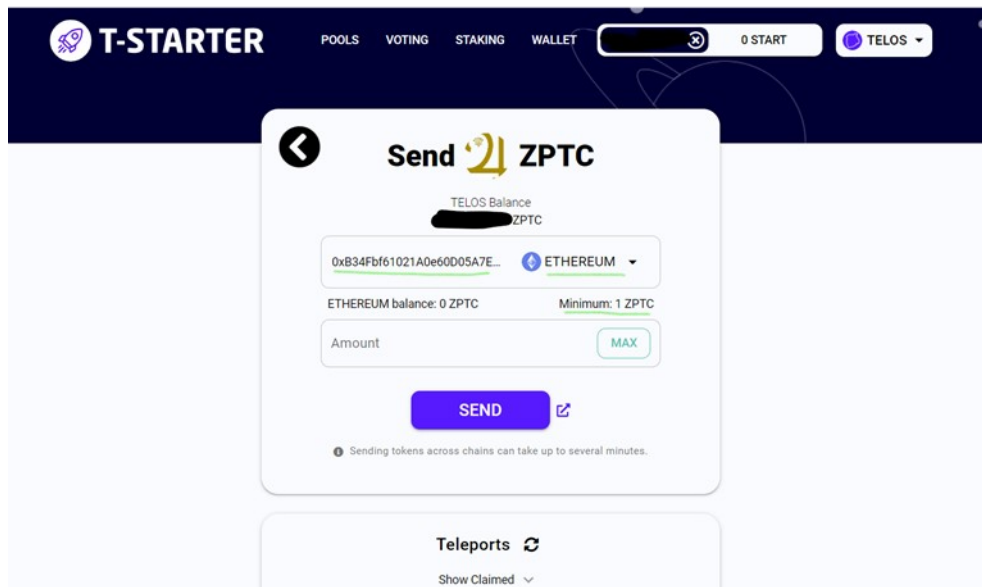

ZEPTACOIN INSTRUCTION

Trading and transferring Zeptacoin to LBank

Step 10

Connect your Metamask ETH/BSC account. And after connecting it you'll see something like the below screenshot.

Step 11

Before sending in make sure you have ETH or BNB to claim the tokens on the account on the other chain for paying gas fees.

Step 12

Initiate the transfer by signing the transaction on Telos using Anchor or Telos Sign.

Step 13

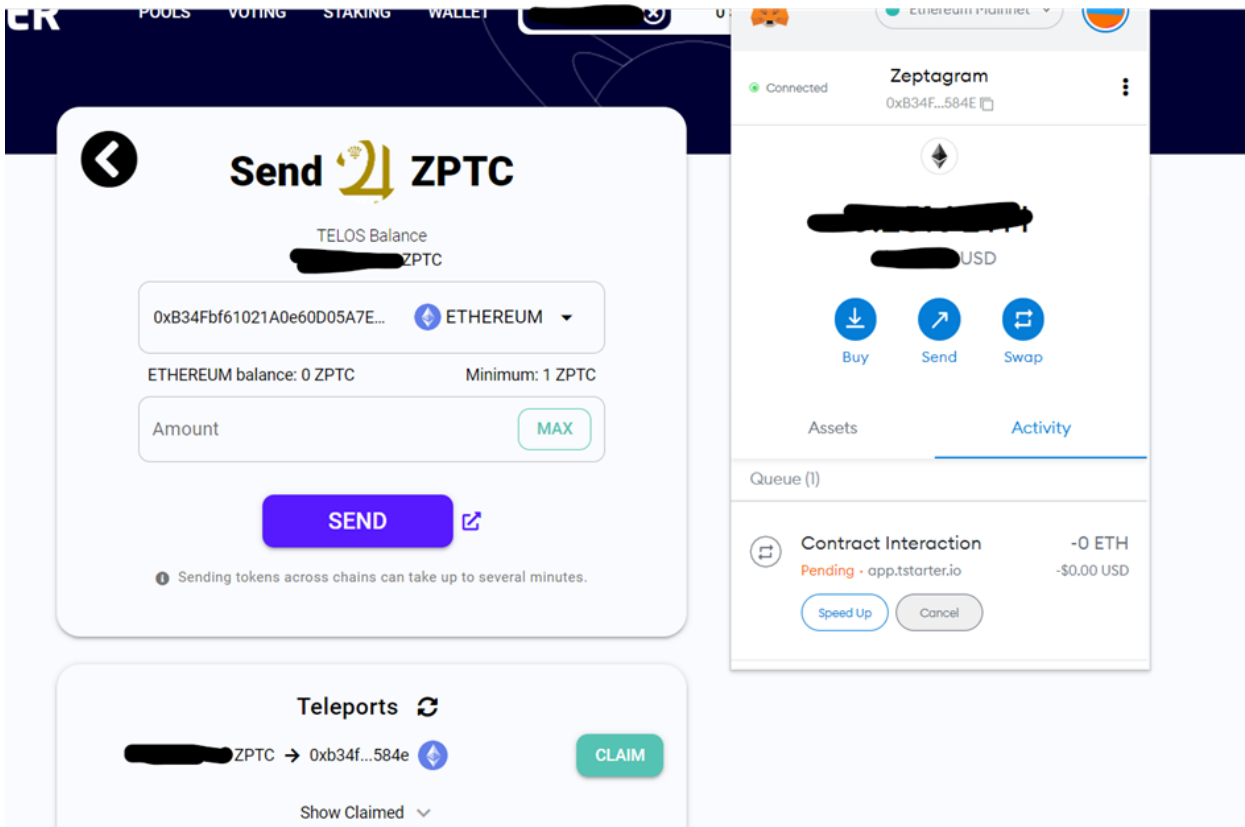

Once transferred, you'll see the option to claim the tokens on the screen.

Step 14

Use Claim button and sign transaction in metamask to claim the tokens.

After signing the transaction on Metamask you will see something like this before the transaction is confirmed on Ethereum.

Step 15

Once the claim is processed you can see the tokens in your metamask wallet and also in teleports history.

The screenshot displays the MetaMask wallet interface. On the left, the 'SEND' transaction screen is visible, showing the recipient address '0xB34Fb61021A0e60D05A7E...', the selected asset 'ETHEREUM', and the amount '0 ZPTC'. A 'SEND' button is prominent. Below this, the 'Teleports' section shows a list of transactions, including '1.0000 ZPTC' sent to '0xb34f...584e'. On the right, the wallet's 'Assets' tab is shown, listing '0 USDT' and 'ZPTC' tokens. A message at the bottom of the assets list asks 'Don't see your token?' and provides a link to 'Refresh list or import tokens'.
